

"Outcome Based Education: Complex engineering problems (CEP) and open-ended labs"

The Department of Metallurgy & Materials Engineering (DMME) organized a seminar, on 17th August titled "Outcome Based Education: Complex engineering problems (CEP) and open-ended labs". The resource person of the seminar was Dr. Syed Wilayat Hussain from Institute of Space Technology. He enlightened the faculty about the key attributes of CEP and Open-ended labs and their assessment mechanism. Faculty members from various engineering departments attended the seminar.
